-----------------	---------------------	--	---

Project Requested By or Purpose

Procure design engineering services for the replacement of an existing one-lane single span 62.7' by 15.7' bridge with a new structure approximately 62.7' by 24' with approach work estimated to be 150 feet.

Work Consists of

Scope of services includes: Environmental documentation, agency coordination, public involvement, surveys, soils & subsurface investigations, road and structure plans, plats, meetings, and final PS&E.

Consequences - If Not Approved

The existing structure is obsolete, structurally deficient and does not meet current standards. Continued deterioration of the structure will require additional maintenance dollars and poses an increasing safety concern which could lead to possible structural failure.

[illegible]

Contract Authority

I certify that this contract is financially and programmatically consistent with the approved annual operating budget or facilities program. I further certify that this request for Governor's approval meets all applicable state and federal statutes, rules, regulations, and guidelines. This certification is based upon a thorough and complete analysis of this request.
